

TRI-RELEASE PROTEIN

Muscle Development and Recovery

Get an anytime protein boost with a complete amino acid profile to jumpstart muscle protein synthesis (MPS). Tri-Release Protein's advanced three-protein blend offers a sustained amino acid release to support muscle recovery over time.

Why You'll Love It

- **Strength and Recovery Boost:** Features Velositol[®] which enhances MPS to support increased strength gains and faster recovery.
- **Lean Muscle Development:** The combination of protein and Velositol supports your body's natural process of developing muscle fibers after exercise.
- **Better Performance:** The three-protein blend helps build lean muscle, enhance strength, and recover faster.[†]
- **Natural Ingredients:** Made with natural ingredients, low in fat and sugar, and free from artificial flavors, colors, or sweeteners.

What's Inside

- **25 grams of protein** per 2 servings from grass-fed whey, egg white, and milk sources
- Essential **amino acids** to help promote muscle recovery and delay fatigue
- Patented **Velositol** enhances branched-chain amino acids efficiency and MPS when paired with protein
- **Chromium** for additional support to metabolize fat, protein, and carbohydrates into energy[†]

How to Use

Enjoy up to four servings daily: pre-, intra, post-workout, or as an in-between snack.

§Velositol[®] is a registered trademark of Nutrition 21, LLC and is patent protected.
